

10 THINGS FOR HEALTHCARE PROFESSIONALS TO CONSIDER TO GET THEIR LEGAL AFFAIRS IN ORDER

Ready for anything

ARE YOU READY FOR ANYTHING?

1

From start to finish, we are here to support and guide you through whatever life throws at you. Through the ups and downs, starting a relationship, having a family, buying a practice, retiring or getting a divorce - protect the things that matter most in both your home and work life.

1. Make a start

Think about what priorities you have for your family and your practice, if you have one, and list them; what do you need to do to make them a reality? Above all, make a decision to get your affairs in order; stop telling yourself you haven't got time or it'll keep until later. Get it off your 'to do' list and enjoy the feeling of satisfaction and peace of mind.

2. Think about priorities

Identify the top issues that are worrying you and need a solution. Think about what sort of solution might be most appropriate, such as insurances, preparing a will, or sorting out the ownership of your property.

3. Consider next steps

It's time to consider what you want to do next. What's next for your career? Are you pushing at the door of partnership? Do you need to borrow? What is the offer likely to be and does it work financially for you?

4. List your assets

Are you thinking of popping the question? Do you need a prenuptial agreement or a living together agreement? Have you been married before? List your assets and where to find them. Include property, accounts and investments, etc. and what each asset is approximately worth.

5. Think about children

Whether you want children or already have them, what do you need to think about to ensure they're provided for when you're gone? Are there any special circumstances, such as a disability?

6. Consider your business

If you have a business, could you expand or merge with another practice? What corporate structure or governance agreement do you need? How do you overcome the 'boiling frogs' feeling and offer an attractive employment proposition?

7. Include your parents

Are your parents getting frail and needing more of your support? Have you got a plan for nursing home fees provision, if appropriate? What happens if they lose mental capacity?

8. Nearing retirement

How will you make your money last and minimise the tax you pay?

9. Prepare for the unforeseen

Has something unforeseen happened that makes day-to-day life tough? Are you heading for a divorce or legal separation and need some support?

10. Contact us

View our website or call us to find out how we can support you.
